DA FANH Fall 2022 Internship

Matthew Solone

Statistics / Data Science

Senior

My goals for this Internship

1. Begin development of my personal brand
2. Futher my technical skills and soft skills
3. Create a meaningful deliverable for CRARS team
4. Improve my professional resources

CRARS Projects

1. Employee time tracking sheet (Demo)
 - a. An internal tool to help increase productivity for employees and to help administration see how employees are spending their time during work

2. Soil / Produce processing tracking sheet
 - a. An internal tool for RAD lab employees to scan the samples in and out of a action that would allow the team to see real time updates of what step in the process a soil is at.

Thank You
